

RAIL CLAMP PRO INSTALLATION

For Benno Boost (EVO 4 and later), 46er, RemiDemi (EVO 4 and later) and RemiDemi XL

READ CAREFULLY BEFORE INSTALLATION AND USAGE. TO BE INSTALLED BY MECHANIC AT AUTHORIZED BENNO DEALER.

1. Place the bottom half of the clamp on each end of the rack (front and rear). Insert them from below and align with the two mounting holes underneath.
2. Secure clamps by inserting two M6 bolts and washers per clamp into the mounting holes underneath the rack. **Hand-tighten the bolts enough to hold the clamps in place, but leave them loose for adjustments.**

3. After placing the rail in both clamps (see separate Rail Installation Manual), **tighten the two M5 bolts on top of each clamp to 5 Nm to secure the rail.**

4. Adjust the rail and clamp position as needed. Then **tighten the M6 bolts on the bottom of each clamp to 6 Nm to secure the clamps to the rack.**

Notes to Mechanic: See Instructions. Install Benno rail clamps only on compatible Benno rear racks and use only pre-drilled holes and fittings. Do not mount clamps to damaged racks. Use only original Benno rails with the Benno rail clamps. Do not modify clamps, racks or rails, change position or drill new holes as this will void any warranties and/or claims for liability. **Note to Owner:** Periodically check to make sure all nuts and bolts remain tight as vibrations may loosen them. Ensure the rear wheel is covered by Benno wheel guards or designated pannier bags*, and all required passenger accessories remain installed while carrying passengers.

WARNING!
REAR WHEEL MUST BE COVERED!
INSTALL PASSENGER ACCESSORIES BEFORE CARRYING PASSENGERS!
FAILURE TO COMPLY MAY RESULT IN SERIOUS INJURY OR DEATH!

MUST INSTALL
 -RAIL or PASSENGER BAR
 -RACK PADS
 -WHEEL GUARDS or designated PANNIER BAGS*
 -SIDELoader

WARNING! REAR WHEEL MUST BE COVERED WHEN CARRYING PASSENGERS! INSTALL BENNO WHEEL GUARDS OR DESIGNATED PANNIER BAGS* WITH FULL WHEEL COVERAGE ALONG WITH RAILS OR A PASSENGER BAR, RACK PADS, AND SIDELoader.
